

# Illawarra Leg Ulcer Clinic

## Expression of Interest

The Illawarra Leg Ulcer Clinic, based at the Port Kembla Hospital Outpatient Clinic, has been successfully operating for 7 years.

An opportunity has arisen to involve a new **GP** to work as part of a specialised team producing highly effective patient health outcomes.

### Time Commitment

Each GP is asked to work one session per quarter. Clinics operate on a Friday morning.

### Reimbursement

Each clinic is fully booked. Patients are bulk billed for attendance and for ABI procedures.

### Clinic Staffing

Each clinic is staffed by a GP, Community Nurses and supported by admin staff. Nursing and medical students frequently rotate through the clinic.

### Clinic Objective

The **Illawarra Leg Ulcer Clinic** demonstrates a successful and sustainable model of a GP-led primary care service where best practice standards and protocols are used to achieve optimum patient care. We aim to:

- Facilitate education and quality professional development opportunities for GPs and Nurses
- Promote patient participation and enhanced literacy for leg ulcer care and prevention
- Work as a team and integrate with allied and specialist community services
- Promote healing through accurate diagnosis and the use of modern dressing technologies

If you are interested in finding out more about this opportunity please tick the box and **fax back** your details ASAP to Alison Dunbar on **4226 9485** or phone on 4220 7600.

**Yes I am interested in finding out more about working in the Illawarra Leg Ulcer Clinic**
